Overview:

This is the third annual retention/graduation report to be produced after the conversion of the student record system to PeopleSoft in Fall Semester 1999. Table formats are similar to last year's and represent cohorts of new freshmen (NHS) starting at the UM in the Fall terms from 1994 through 2001. Beginning this year, all degree and enrollment data included in the report are derived solely from the PeopleSoft "retention" data warehouse tables, including Pre-Fall 1999 data which has been converted from the old IMS legacy system. The report covers all four campuses. Crookston campus numbers only include those students who were officially pursuing a bachelor's degree in their entry term.

Cohort definitions:

The NHS cohort definitions in these new reports differ from those used in the old system (pre-PeopleSoft) reports.

In the old system two different sets of NHS cohorts were used, one for internal reporting and one to meet federal IPEDS reporting requirements:

Internal cohorts included all NHS students - full time and part time - as long as they had completed no more than 39 college level (quarter) credits during or after high school.

IPEDS cohorts were a subset of the internal cohorts, including only those who were full-time and excluding those who completed **any** college level credits, even if taken during high school. This logic eliminated students who participated in the MN PSEO program.

Zero credit remedial courses were NOT used to establish full time status for either set of cohorts.

In the old system, internal reports included 100% of NHS students, but the IPEDS reports only included approximately 67%.

In the new system, and in this report, a single set of cohorts is used for both internal and IPEDS reporting. These new cohorts are selected using official IPEDS "first-time/full-time" definitions including only full-time students and excluding only those who completed college level coursework **after** graduating from high school. Students who participated in the MN PSEO program are now correctly included. In addition, zero credit remedial courses are now used to establish full time status.

The new reports include 96% of all NHS students.

Graduation and Enrollment status definitions:

Each individual table shows graduation and enrollment status rates for entering cohorts within a designated number of years after term of entry. A year is defined as Fall through Summer Session inclusive.

Graduation status values represent cumulative bachelor's degrees received at the UM from the Fall term of entry through the Summer term of the designated yearly interval. For example, if a student entered in Fall 1995 and received a bachelor's degree any time from fall 1998 through summer 1999, they would be counted initially as a graduate in the "four years after entry" table and then in all subsequent tables (once a graduate, always a graduate).

Enrollment status values represent enrollments as of the end of the 2nd week of the Fall term immediately following the designated yearly interval. For example, if a student entered in Fall 1995 and had not received a degree through summer 1999 and was enrolled for classes in Fall 1999, he or she would be counted as enrolled in the "four years after entry" table. This actually means the student returned for the start of their fifth year.

Both the graduation and enrollment status values are subdivided to show campus and college level movement, resulting in a total of eight possible values:

- Degree Entry Unit: received degree from campus of entry and college of entry
- Degree Other Unit: received degree from campus of entry but from non entry college
- Degree Other Campus: received degree from non entry campus
- Enrolled Entry Unit: enrolled on campus of entry and in college of entry
- Enrolled Other Unit: enrolled on campus of entry but in non entry college
- Enrolled Other Campus: enrolled on non entry campus
- Enrolled Other Level: enrolled at the Graduate or Professional level on any campus
- Not Enrolled Undergraduate: not enrolled anywhere at UM

All status value numbers are mutually exclusive.

Note:

When comparing this years report (2002) to last years report (2001) there are some notable differences between the Enrolled Same Unit and Enrolled Other Unit numbers for pre-Fall 1999 terms. In last years report, students who enrolled as regular “day school” students for one Fall term and switched to taking only CCE or “night school” courses the next Fall, were represented as enrolling in a different unit. In this years report these same students are represented as remaining in the same unit, which is consistent with how PeopleSoft treats these registrations. In addition, other slight difference may occur because the report is created from scratch each year and any retroactive enrollment or degree posting activity will be reflected.

Additional Data:

These reports can also be generated at other levels of detail (e.g. by college) and for students entering the UM as new transfer students (NAS). In addition, the raw data used for these reports will be available soon as Oracle Data Warehouse tables which will allow end users to run ad hoc queries and generate their own custom reports. Please contact John Kellogg (j-kell@umn.edu) for more information.
