Introduction

The 2006 New Student Characteristics report is similar to the past New Student Characteristic executive reports published prior to the PeopleSoft conversion of 1999. However, unlike the previous report, the new report does not include new transfer students (NAS), but instead focuses only on incoming freshmen (NHS--New High School students). The report contains summary information on the commonly cited demographic and academic characteristics of incoming freshmen to the four campuses of the University of Minnesota. The format of the report is a series of tables, showing individual collegiate unit and campus data in columns and either percentage breakdowns or summary statistics in rows.

- NHS cohorts are based on end of second week enrollments used in the official registration statistics.
- The report copy is available electronically at <http://www.irr.umn.edu/>.
- The raw data table for the production of the report is available for ad hoc query by authorized users through the data warehouse system. The table name is ps_dwsa_nscr.

Glossary of Terms
